Description

We're updating dependencies of several Pegasus components and their CI tools:

pegasus-infra

- https://github.com/OutSystems/pegasus-infra/pull/256
- https://github.com/OutSystems/pegasus-infra/pull/273
- https://github.com/OutSystems/pegasus-infra/pull/274

pegasus-extensions-infra

- https://github.com/OutSystems/pegasus-extensions-infra/pull/35

pegasus-configs

- https://github.com/OutSystems/pegasus-configs/pull/760 & https://github.com/OutSystems/pegasus-configs/pull/779
- these changes will require upgrading the corresponding version in https://github.com/OutSystems/pegasus project
- then it will require upgrading the pegasus dependency in https://github.com/OutSystems/pegasus-bot project

All changes will be validated in Lab first, with e2e tests execution to guarantee no impact.
