Special Procedure Guidelines

PLEASE DO NOT CLONE REQUESTS FOR CHANGE - if you do it, automations will not be triggered and wrong information from the origin RFC will be replicated wrongly to the new RFC.

Change Category: Add option

Description

Due to incident https://outsystemsrd.atlassian.net/browse/RDINC-51345, environment ddb8f840-1e10-4645-b948-4d165dc88ed1 is stuck on provisioning, now because the Terraform state is invalid. The DB Instance was already created previously, but for some reason the TF State is inconsistent and trying to create it again, this RFC is to correct the state by importing it.
