Description

The feature toggles in Launch Darkly allow the teams to enable a specific part of the code/feature remotely at a given moment, making these changes available for the affected customers/rings/geos.

In the context of this RFC, we want to enable the redirect to appgenerator on mentor for ODC Portal for test tenants OutSystems Tenant of Digital Applications (f4248c7c-5784-4166-a25f-acf30b9b652e) and OutSystems Digital Integrations ODC (ffbd860e-d0c2-400b-90b2-64d23e3f912a).
