PLEASE DO NOT CLONE REQUESTS FOR CHANGE - if you do it, automations will not be triggered and wrong information from the origin RFC will be replicated wrongly to the new RFC.

Change Category: Add option

Description

The O11 Migration team is requesting the O11 Connector to be enabled for the **OutSystems Platform of Normal,** and **OutSystems Platform of WoningNet N.V.**. What is required is to make the connector available in the ODC connections console through Launch Darkly Feature Toggle. The goal of this RFC is to enable the connector in the following tenant:

Tenant ID	Activation Code	Tenant Name
916a4ced-2ec0-46ec-b5ed-0a412545df7b	KFF.P4E.L11.JNL.GFA.49N.1TR.CYV	OutSystems Platform of Nc
8a424fac-f6bb-4c26-9eed-8eb20ce8c839	YBC.NMJ.87A.PDR.Z3H.TI6.Y7T.SJO	OutSystems Platform of Wc

For that, the FT **TG_Connections_Enable_O11** && **TG_Connections_Enable_O11_Use** must be updated. According to the standard catalog linked to this RFC, the set **4.b** in the Implementation Plan must be followed.
